This is truly the Pirates of the Carribean of multiplayer, the engine seems like the ut2004 so no heavy lifting, and it really has it all. You can be the loner and attempt to fly stealth and sabotage or take an enemy ship and use against them, or you can be part of a crew where team work is key. Its UT2004 Torlan but in the sky. Definately give this one a go, and at the price of 15 bucks! Definately one for your collection.. Whoa, this game is horrible. This is just slightly better than its prequel. Controls are still ♥♥♥♥ed up, voice acting is still terrible, graphics are irrelevant for this kind of game, but it still bugs me how bad this game was made overall. Bad programming at its best.

I had to force myself through this game, through this torture, just for the sake of the plot which wasn't even that good. Holmes conclusion is the only good moment in this game. They even ♥♥♥♥ed up the cinematics.. It cracks me up how so many people have such negative comments about this game....its EARLY ACCESS PEOPLE and yes there is still alot to be done and its just a glimpse of whats to come...be glad its free and quit complaining and be patient...so far i think it looks pretty good...really missed PS-HOME so im glad there bringing something similar...i will definately be patient for this one :-). A respectable "Experiment" but a full fledged game with a price tag this is not

The game still drops frames and lacks many basic features a game should have

I think this was a missed opportunity to make a game with a real classic style

Maybe release it as Early Access and build upon the software renderer and content

Instead it seems to be a proof of concept with placeholder sound effects. Well worth the money. Lots of fun. Pros:

- Good idea for puzzles, fun to play
- It's a long game. For its price it gives 60 levels which is sweet. The puzzles ain't so easy either.

Cons:

- Music. This is first thing that comes to mind. The music is so annoying, and it always starts over when replaying the level (getting stuck, that's why) and it feels so glitchy, but the reason is just rushed game design
- Graphics. It's okay, decent, but all the backgrounds and levels and so on looks so same. This just looks so copy-paste everywhere, rushed, done in few days / weeks.
- Controls... terrible, very terrible.

overall rating 3/10. good good good

. this is fun!

an on-the-rails shooter with gun and shield

still needs some fine tuning, but for 4\$ its well worth it id say! :). Very good game for the price. Creates a good and terrifying atmosphere with some good jumpscars.

8 chairs smacking you in the face out of 10

FTL + XCOM + Mass Effect.

Excellent game that you can play in small chunks of time.. Is there anything better than Alexander the Great?

A total war expansion based on his campaigns!. Achievements.

Easy 100% / 1h, just idle.. This game is beautiful. Just absolutely beautiful in every way, and a very well-designed RPG.

Unfortunately, though, it lacks a professional level of polish. I encountered multiple bugs with the game, including one at the very end of the game that rendered it unbeatable for me. So as much as I initially enjoyed this game, I have to warn potential buyers of this.. Ph'nglui mglw'nafh Cthulhu R'lyeh wgah'nagl fhtagn.. The game is full of♥♥♥♥♥♥♥♥ uninteresting I do not understand who in this plays what kind of morons created it Well it's not at all interesting garbage full. fix the damn long range defense weapons jesus christ it becomes unbarebly to play. A wave shooter that you stand in one place, but it has amazing atmosphere and shooting mechanics. Buy on sale and you won't be dissapointed if you're a horror fan.
